SUBJECT INDEX

Alkali metal hydride powder
Negative hydride ion production by low energy electron impact of alkali metal hydride powder 23
Alkanes
Charge-remote fragmentation of gas-phase ions: mechanistic and energetic considerations in the dissociation of long-chain functionalized alkanes and alkenes 179
Alkenes
Charge-remote fragmentation of gas-phase ions: mechanistic and energetic considerations in the dissociation of long-chain functionalized alkanes and alkenes 179
Atmospheric molecules
Electronic excitation of atmospheric molecules by proton impact 137

Br_2^-
Effect of buffer gas and pressure variations on the formation of Br_2^- in reactions of thermal electrons with dibrominated hydrocarbons and fluorocarbons 63

CCl_2F_2
Bleeding CCl_2F_2 as a tool to enhance the emission of metal ions and to suppress isobaric interferences by oxide ions during a multi-element analysis of rare earth elements on a thermal ionization mass spectrometer 227
$[CH_3CO]^+$ cations
Fragmentation characteristics of the unstable $[CH_3CO]^\cdot$ radicals generated by neutralization of $[CH_3CO]^+$ cations 213
$[CH_3CO]^\cdot$ radicals
Fragmentation characteristics of the unstable $[CH_3CO]^\cdot$ radicals generated by neutralization of $[CH_3CO]^+$ cations 213
Characterization of cations
Approaches to spectroscopic characterization of cations 1
Charge-remote fragmentation
Charge-remote fragmentation of gas-phase ions: mechanistic and energetic considerations in the dissociation of long-chain functionalized alkanes and alkenes 179
Collisional excitation of CO
Collisional excitation of CO: a study of the Wigner spin rule 49

Ethanol
The thermal dehydrogenation of ethanol in a high pressure ion source 95

Fluorocarbons
Effect of buffer gas and pressure variations on the formation of Br_2^- in reactions of thermal electrons with dibrominated hydrocarbons and fluorocarbons 63

Hydrocarbons
Effect of buffer gas and pressure variations on the formation of Br_2^- in reactions of thermal electrons with dibrominated hydrocarbons and fluorocarbons 63

Ion mobility spectrometry
Experimental signal analysis in ion mobility spectrometry 163
Ion trapping and manipulation
Ion trapping and manipulation in a tandem time-of-flight-Fourier transform mass spectrometer 109
Isotope dilution mass spectrometry
How to correct for blanks in isotope dilution mass spectrometry 45

Metastable peak shapes
Metastable peak shapes induced by internal energy release in electrostatic mirror time-of-flight mass spectrometers 83
Multi-element analysis
Bleeding CCl_2F_2 as a tool to enhance the emission of metal ions and to suppress isobaric interferences by oxide ions during a multi-element analysis of rare earth elements on a thermal ionization mass spectrometer 227

Negative hydride ion production
Negative hydride ion production by low energy electron impact of alkali metal hydride powder 23

Oxygen-containing organic compounds
Surface ionization mass spectrometry of organic compounds. Part 4. Oxygen-containing organic compounds 129

Post-source pulse focusing
Resolution enhancement in linear time-of-flight mass spectrometry by post-source pulse focusing 35
Proton impact
Electronic excitation of atmospheric molecules by proton impact 137
Protonated ethers
Complexes ion/molecule intermédiaires dans la fragmentation des ethers protones 145

Rare earth elements
Bleeding CCl_2F_2 as a tool to enhance the emission of metal ions and to suppress isobaric interferences by oxide ions during a multi-element analysis of rare earth elements on a thermal ionization mass spectrometer 227

Surface ionization mass spectrometry
Surface ionization mass spectrometry of organic compounds. Part 4. Oxygen-containing organic compounds 129

N,N,N′,N′-Tetramethyl-1,4-phenylenediamine
Mass spectra of N,N,N′,N′-tetramethyl-1,4-phenylenediamine using nitrogen laser and electron impact ionization R1

Toroidal condenser
On the field potential and ion optical properties of the toroidal condenser with imperfectly shaped electrodes R11

Wigner spin rule
Collisional excitation of CO: a study of the Wigner spin rule 49
